

INTERESTED? CONTACT US.

Insulated concrete curing chambers from **KRAFT CURING** are available for all types of curing methods and are ideal for increasing the concrete quality while reducing curing costs by up to 50 %.

Optimally insulated curing chambers reduce heat and moisture loss for more effective and efficient concrete hardening.

CHAMBERS FOR CONCRETE CURING

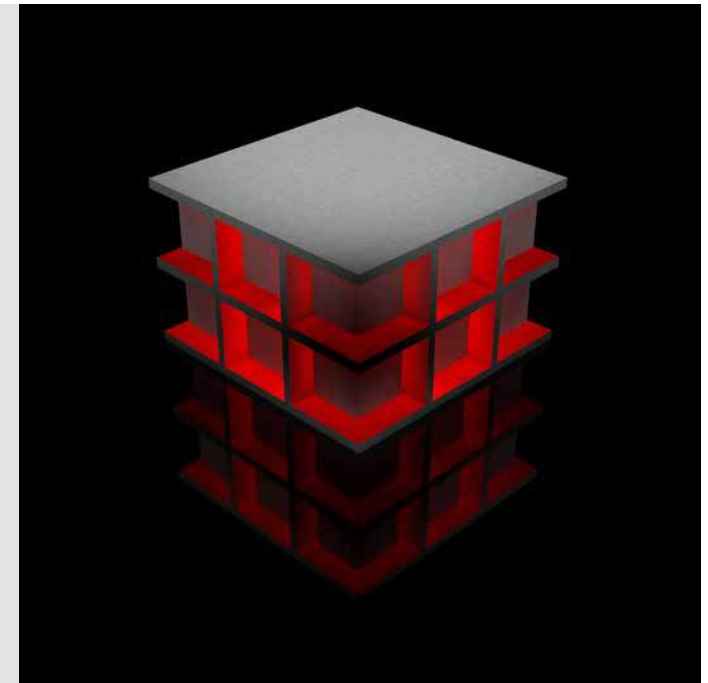

Kraft Curing Systems GmbH

Muehlenberg 2 | 49699 Lindern | Germany
+49.5957.9612.0 | info@kraftcuring.com

Kraft Curing Systems, Inc.

300 Ben Fairless Drive | Fairless Hills, PA 19030 | USA
+1.267.793.1005 | info@kraftcuring.com

OUR GUARANTEE

-  ideal for all curing methods
-  insulated sandwich panel design
-  KRAFT's proprietary F-F-S (Flashing-Foaming-Sealing) joint detail
-  increases the concrete quality

YOUR BENEFIT

-  reduces curing costs, compared to traditional curing enclosures
-  prevents condensation and corrosion
-  prefabricated design reduces installation duration
